

Introducing Our New Catalogue

Allow us to briefly introduce the company TVAR v.d. to you.

Based in Klatovy, the Czech Republic, TVAR is a furniture manufacturer that since 1989 has specialised in producing furniture for nursery schools, day-care centres and other similar pre-school facilities.

We strive to offer not just fresh new ideas, but also the highest level of quality with an emphasis on safety and a guarantee that all European norms prescribed for this type of furniture are met.

Today we employ over 100 experienced professionals who have perfectly mastered their trade at two manufacturing sites.

Workshops are equipped with the latest machinery, allowing us to offer you a wide assortment of products with a high level of craftsmanship and very quick delivery times.

We consider it an honour to have the opportunity to provide some of the furnishings for your nursery school and will do everything we can to maintain your trust so that you will happily and faithfully return to us in the future.

Delivery terms and conditions

General

All deliveries are made in compliance with the Terms of Delivery and Terms of Payment stated hereunder. No other terms may be arranged without the express written agreement of both contracting parties.

The Order

Orders must always be placed in writing (by post, fax or e-mail). They are processed in order of receipt and subject to stock availability. The Order must contain the Customer's exact invoice and delivery address, the correct product code, and the quantity required. If assembly is required, this must be stated in the Order.

The Price

The prices in the price list are exclusive of VAT. Previous prices automatically cease to apply when a new price list is issued. Unless explicitly stated otherwise, the stated prices apply to the type of Goods as illustrated in the catalogue. Prices are valid for a full calendar year. However, we reserve the right to adjust prices to reflect any substantial rise in input prices or any substantial change in the exchange rate.

Shipping Charges

Shipping charges are not included in the price of the Goods and are applied separately for all buyers. Such charges cover shipping from the Supplier's warehouse in Klatovy to the specified delivery address.

Assembly

The delivery, mounting and assembly of the furniture is not included in the price of the Goods. If you request such work in your order, we will notify you of the final amount when confirming your order. The Seller reserves the right to make additional charges if the conditions for assembling the equipment are non-standard (e.g. access routes, broken lifts, parking restrictions, unprepared spaces and suchlike).

Terms of Delivery

The standard delivery time is 4–6 weeks from receipt of the order unless agreed otherwise. In the case of unusual goods, special services and large items, the delivery time is specified on an individual basis after consultation with the Customer. Partial shipments may be made.

Terms of Payment

The prices in the price list are exclusive of VAT. After the Goods have been delivered, the Supplier is obliged to make out an invoice and send it to the Customer. The standard time limit for payment is 14 days. The payment date is the date on which the amount corresponding to the Contract of Sale is credited to the Seller's account. The Goods shall remain the property of the Company until full payment has been made. The Seller reserves the right not to supply the Goods to the Buyer if the Buyer fails to pay his past-due obligations to the Seller.

Cancellation

In the event of strike, fire, transport disaster, natural disaster or any other unnamed event of force majeure, the Seller shall be exempt from its obligations for the entire duration thereof. If the Buyer withdraws from the signed Contract of Sale or cancels the binding Order without the Seller provably giving cause, the Seller reserves the right to proceed according to the following rules:

1. The Order may only be cancelled in writing.
2. The Seller is entitled to withdraw from the Order if the ordered Goods cannot be delivered within the requested delivery time.
The Seller is, however, obliged to notify the Buyer of this fact in writing.
3. If the Buyer cancels the Order, the Seller is entitled to charge a cancellation fee of 30% of the agreed purchase price.

Warranty

A warranty lasting 24 months from the despatch date is provided on all our products. All warranty claims must be submitted in writing. The Seller will notify the Customer within three working days of its opinion on the claim and the time limit for dealing definitively with it. The Customer shall inspect the physical condition of the Goods upon taking receipt thereof. Any defect found to have occurred during shipment must be recorded on the shipment/delivery note and acknowledged by the carrier. Without such acknowledgement by the carrier, no claim can be made for goods damaged during shipment. The Customer must make claims regarding quantities and other apparent defects within seven working days of taking receipt of the Goods. Claims regarding concealed defects must be made as soon as they are discovered and within 24 months of taking receipt of the Goods. In the case of timely and justified claims regarding defects that cannot be rectified, replacement goods will be supplied to the Buyer. In the case of claims regarding defects that can be rectified, the damaged goods will be repaired. The Seller reserves for itself a reasonable length of time to provide replacements. All the products we supply are designed for interior use.

Legal Relations

The Contract shall be governed solely by the laws in force in the territory of the Czech Republic and the jurisdiction of the Czech courts. Laws outside the territory of the Czech Republic may not be applied. By submitting the binding Order, the Buyer agrees to the aforementioned Terms of Business and undertakes to comply fully with them.

MIKI Furniture Range

The MIKI rang is a basic modular series of furniture for nursery schoul intériére.

The frames of individual units have a LAMINATE surface in decor beech (**BK**) or dekor Maple (**JV**)

Socle height 5 cm

Front faces of drawers and doors

Natural wood models Cxx.xxx .00 are veneered (beech veneer)

Colour models Mxx.xxx. BK (JV) 01 have a LAMINATE surface (laminated chipboard)

Removable drawers are made of solid beech butcher block.

MIKI TOP Furniture Range

The MIKI TOP furniture range represents the latest trend in interior design for nursery schools.

Use the individual items as free-standing units or combine them to form functional systems.

The bright colours of the units are achieved by staining the decorative solid wood uprights on either side of the cupboards.

These uprights simultaneously act as supporting elements when the units are combined to form systems.

The frames of the individual items of furniture are made of LAMINATED (LTD) 18 mm and 38 mm chipboard, with a natural beech finish on both sides and ABS plastic edging.

The front faces of the drawers and doors are made of LAMINATED (00) chipboard.

The decorative uprights are made of solid beech stained in the following colours: natural (00), blue (01), red (02), green (03) and yellow (04).

The handles are made of solid beech in natural finish.

The drawers are made of solid beech board in natural finish (00).

MIKI ART Furniture Range

The MIKI ART range is compatible with the MIKI and MIKI PLUS ranges. The methods and materials used in making the individual components are almost identical for the three ranges, so there is nothing to prevent you using all three in the same interior. The bright colours and adaptability of the MIKI ART range make it ideal for nursery schools. The frames of the individual items of furniture are made of **laminated** 18-mm chipboard, with a beech-effect finish on both sides and 3 mm ABS plastic edging.

The plastic drawers supplied with this range are manufactured by the well-known UK company Grattells, whose products are known and used throughout the world. These drawers possess all the necessary quality certificates and are non-toxic. They are made from polypropylene, which is highly resistant to mechanical damage.

The drawers can be supplied in the following colours: clear, blue, red, green and yellow.

**If you can't find the cupboard you want,
you can design it yourself:**

Standard Tables with Solid Wood Underframes

The tables featured here supplement the furniture system. They come in heights ranging from 36 to 76 cm. Add suitable sized chairs to create interior for all age categories.

Legs and underframes are made of solid beech.

Table tops are available in two variants:

LAMINATED 18 mm laminated chipboard and ABS plastic edging decor beech, surface coloured according colour card.

FORMICA 18 mm chipboard with a Formica finish on both sides. Upper surface according colour card.

Tabletops are edged with solid beech glued wood panels that have been rounded and finished with polyurethane varnish.

Tables are supplied flat-packed.

Tables with levelling feet

We are all familiar with the problem of uneven floors and wedging things under the leg of the table to keep it from wobbling. This range of tables offers you an ideal solution by allowing you to level the table by adjusting the legs by up to 3 cm. As an added bonus, you can colour-coordinate the legs with the table top. **The table legs are coloured according to colour card.** The **underframe** of the table is made of solid beech.

Table tops are available in two variants:

LAMINATED 18 mm laminated chipboard finishing ABS plastic edging, **surface decor beech (00)**.

FORMICA 18 mm chipboard with a Formica finish on both sides. **Upper surface decor beech (00)**.

Tabletops are edged with solid beech glued wood panels that have been rounded and finished with polyurethane varnish.

The table legs are composed of 60 mm-diameter metal tubes with plastic height-adjustable feet and come in colours according to colour card.

Tables are supplied flat-packed.

TIM Stackable Chairs

These chairs are made of premium solid beech. The seat and back are made of multi-layered beech plywood.

Plastic or felt pads (depending on the type of indoor floor covering) can be ordered for the chair legs.

The chairs are designed so that they can be stacked. The surfaces have been finished with semi-matte polyurethane varnish.

The stackable chairs are available in the colours shown in the colour chart (00, 01, 02, 03, 04 or 07) with several wood stain options (A, C).

Art Supply Storage Units

Drawing, sculpting, paper cutting – all these are favourite and frequent activities children look forward to at nursery school. But art activities require that classrooms have a large quantity of art materials that can be stored away and be available at any time. In this section you will find several new products that can help you solve this problem so everything you need for art class will be right at the tip of your fingers.

Locker Room Furniture

Lockers are an essential element of any nursery school. They are usually the first thing the children and their parents come upon when they enter the school, and so should create a positive impression. The locker frames and doors are manufactured with a laminated finish. The doors are available in various colours or combinations of colours according to the colour chart (00, 01, 02, 03, 04 and 99).

Children's partitions

Children's partitions are a favourite interior element that makes it possible to create a classroom play area made up of little islands that offer ample room for individual areas to be geared towards a particular subject. Children can hop from island to island and find their own space to be with their friends.

Individual partitions are made of a solid beech frame with various types of fill. Joining elements are always automatically supplied for each section and are also made of solid beech. Individual elements can be connected to the MIKI, MIKI PLUS, MIKI TOP or MIKI ROLL furniture systems or can be anchored directly to the wall.
